Russel Rosmin

UI/UX & Front-End Developer

PROFILE

I'm a results-driven UI/UX and Front-End Developer, equipped with a Multimedia Technology major from the University Malaysia Sabah. My expertise lies in crafting captivating digital experiences by seamlessly merging design and code.

WORK EXPERIENCE

UI/UX Designer & Front-End Flutter Developer

2023 - CURRENT

Phi Software, Kota Kinabalu

I take immense pride in my continuous commitment to develop cutting-edge front-end applications for esteemed organizations like

DBKK, BSN and **BANK ISLAM**.

Leveraging the power and versatility of Flutter, I'm dedicated to delivering sleek and highly efficient solutions that redefine user experiences.

Intern (6 Months)

2022

Phi Software, Kota Kinabalu

I've joined with developers, lending my expertise to drive success in their key projects like **VitaHealth Application, Edu Life Borneo, LinkExpress, Enersun, Assetware, and 8planner**.

ACHIEVEMENTS

UMSKAL DEAN LIST AWARD

Portfolio

UI/UX & Front-End Developer

BANK ISLAM Flutter App

Developed a Flutter app for Bank Islam, integrating DuitNow QR Scanner and QR Payment features.

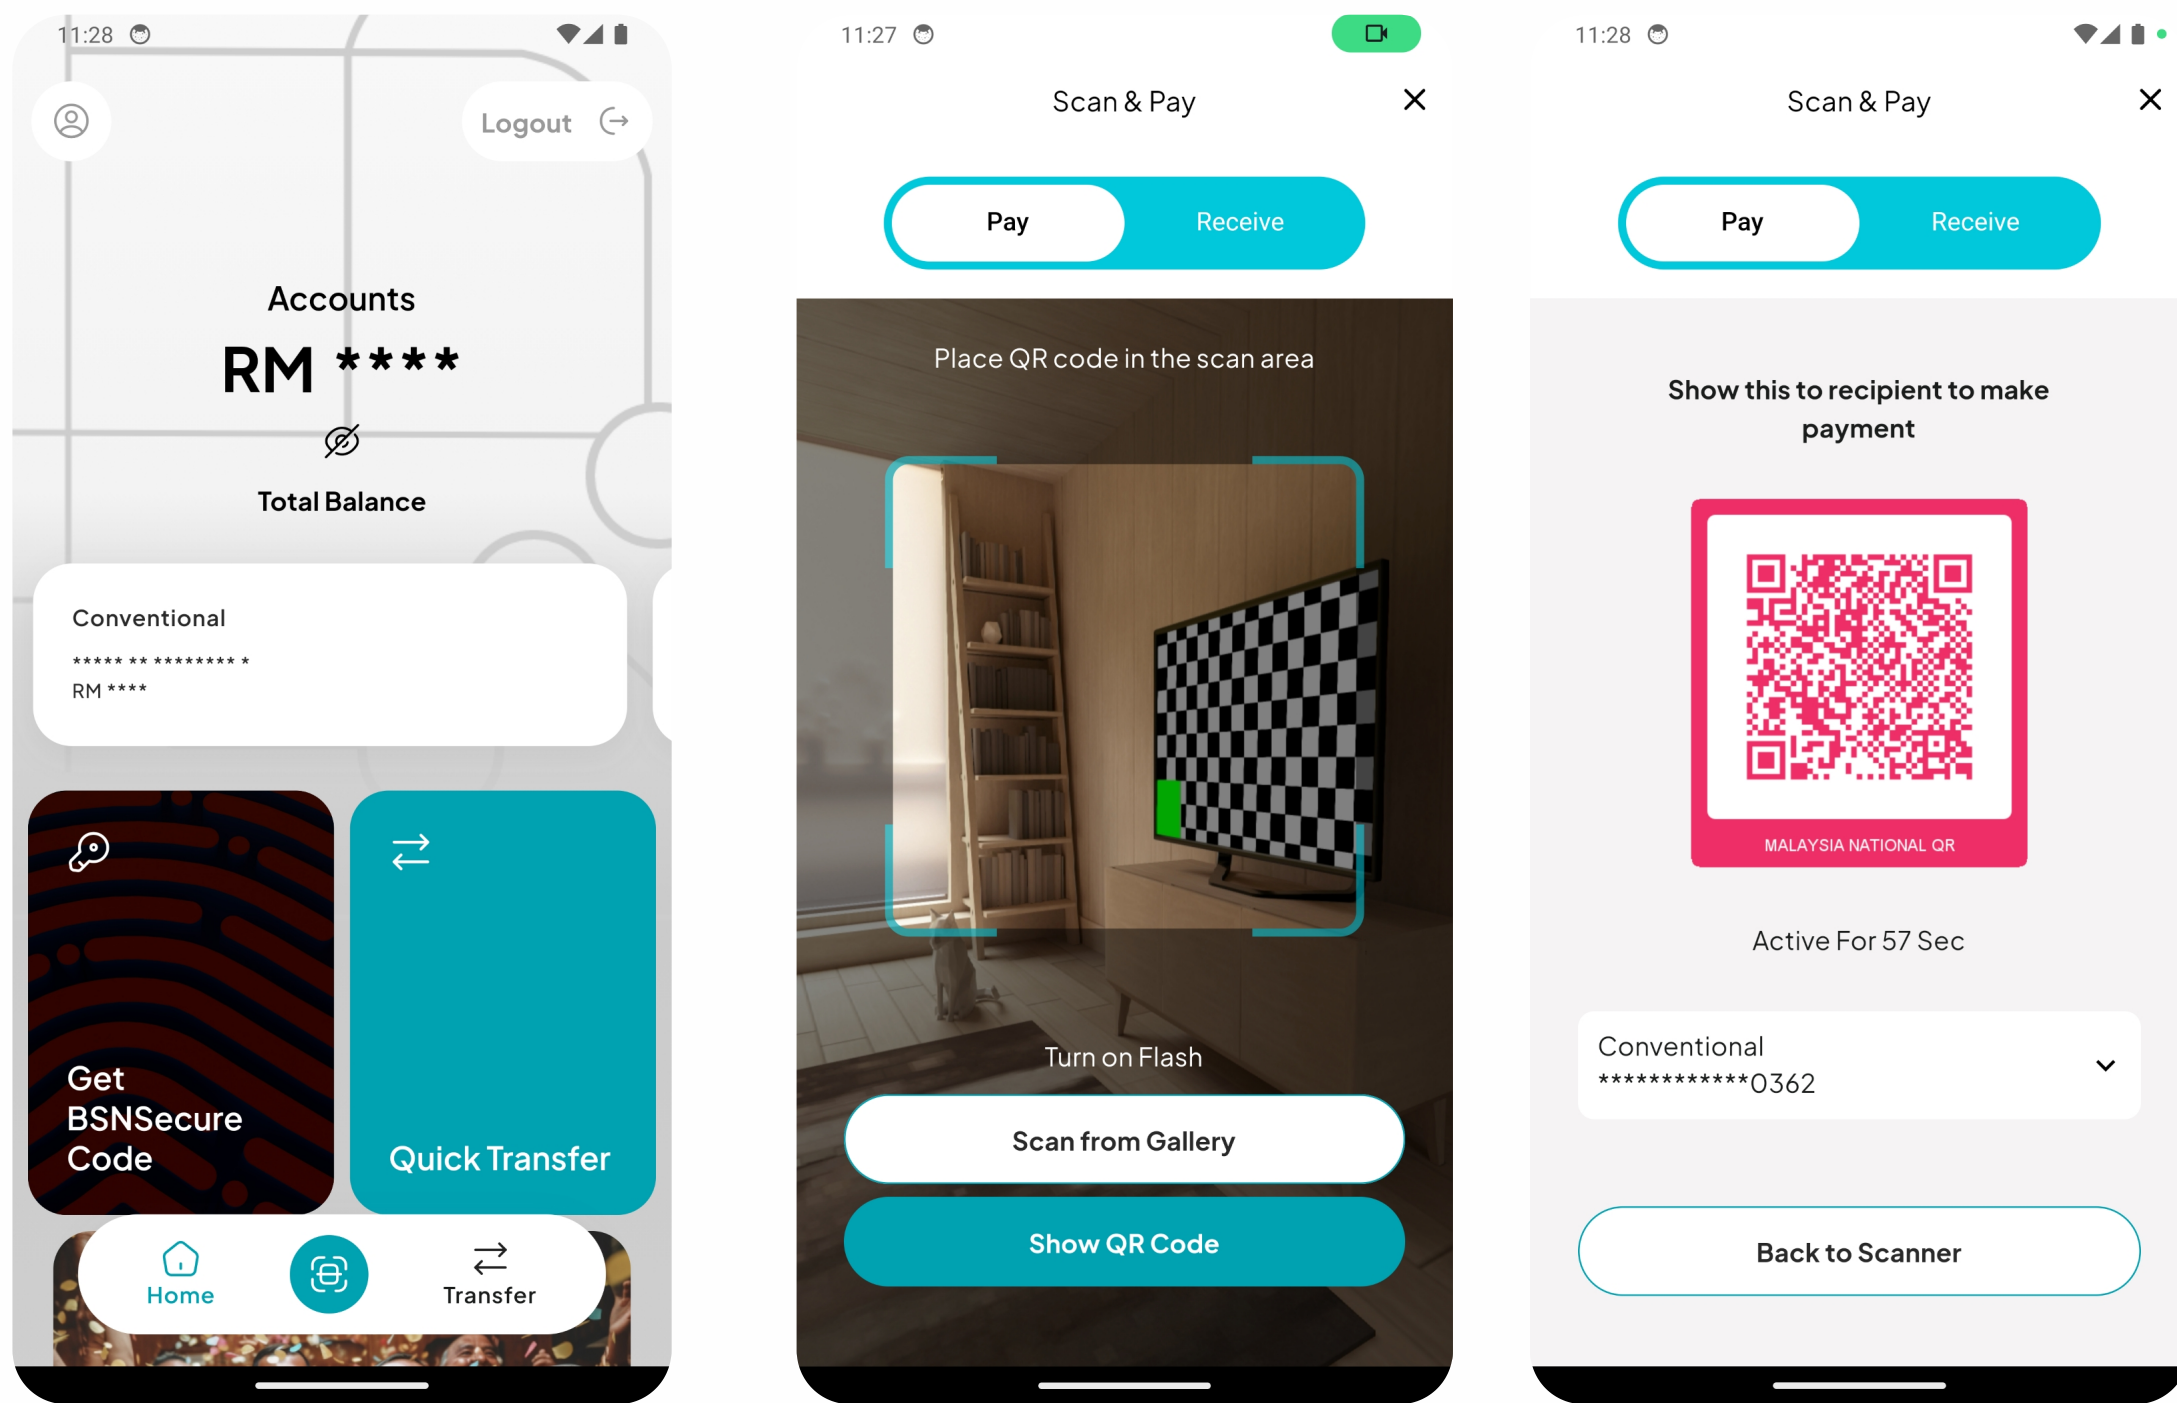

- Designed app architecture ensuring security and usability.
- Implemented DuitNow QR Scanner and QR Payment modules.
- Enhanced UI/UX for intuitive user experience.
- Conducted testing for bug-free performance.

BSN Flutter App

Creating an innovative user interface for the QR code functionality. This involved adding a scanner QR code function, enabling seamless payments within the application. I also developed the payment QR code function and its corresponding UI.

Implemented the integration of API to retrieve QR codes for display within the application.

DBKK Flutter App

DBKK-USER-APP

Made sure that the location feature works smoothly, so users relying on maps have a good

DBKK-ENFORCEMENT-APP

Addressing enforcement data fill functions and improving the printing format. This can help

DBKK-USER-APP

Adding summary information regarding DBKK coupons and organizing the data displayed in
